## THE ARCHITECTURAL FUNCTIONS OF STENI VISION

### INTEGRATION ADAPTIVE FUNCTION

---

Adapt and add value to your surroundings,  
by blending in or by adding a new perspective.

### INFORMATION CLEAR MESSAGE

---

Information helps people make choices.  
Give a clear message on who, what, where and why.

### IDENTITY PERSONAL TOUCH

---

Stand out by giving the building a unique personality  
and attitude.

### ILLUSION DECEIVING AESTHETICS

---

Things are not always what they seem.  
Optical illusion can be a powerful tool to enhance  
your architectural expression.

# STENI'S WORLD OF SURFACES

## COLOURS

Colours create moods: blue for calm, yellow for joy, red for energy, green for harmony – the whole spectrum. Standard colours or a shade suited to your personality. Bright colours, soft colours, coordinated tones, patterns and markings, or combined with other materials – the universe of colour is yours to explore!

## TEXTURE

Texture adds character. A hand stroking a coarse, stony crag and a smooth rock – feel the difference! Crushed natural stone, from fine grain to coarse structure in Mother Nature's own shades. A rough surface that adds substance, or a soft, light expression?

## GLOSS

Gloss defines how the light interacts with the surfaces: matt, half matt or high gloss – a soft, harmonious idiom, or surfaces that shine like mother-of-pearl? Different degrees of gloss can subtly alter colours and visual impressions. Playing with gloss levels adds life and personality.

## PRINT

Your own personal signature: graphic elements, drawings, photos and patterns create your own bespoke expression. Build identity and reflect function and history. Identity, illusion, integration, information – aesthetics never seen before.
