

PROBOARD METALS

CLOSED-JOINT STEEL CLADDING

Proboard is a low-maintenance, non-combustible steel wall cladding suitable for both residential and commercial applications. Available in both solid and perforated panels, Proboard covers either 4" or 6" and is manufactured in custom lengths. It features a hidden fastener system and is available in a variety of wood grains and color options.

Steel has an incredibly long life, is 100% recyclable, and contains a minimum of 30% recycled steel in the initial product. From offering custom cut-to-length cladding and CAD-assisted design
